

Always focusing on your health, safety, and peace of mind!

Tamba black soybeans: shiny and jet-black.  
A product of the sun, earth and rain;  
A beautiful miracle grown in Tamba.

### Introduction:

Founded in 1989, this company is a special wholesale manufacturer and distributor of black soybean products in Japan. These rare soybeans are grown locally in the Kyoto Tamba region; we pride ourselves in producing the highest quality of black soybeans.

### Our product:

Currently, our processing plant is located in Kyoto, Japan, and we sell various black soybean products including teas, soybean flours, and sweets. We supply and provide our various products throughout Japan.

### Sales activities in Japan:

We supply our products to various high-class supermarkets, mail-order companies and online-sales companies in Japan. Recently, we have been expanding our outreach and have also advertised our products in display shows.

### Our commitment :

Ever since our company's establishment, we have made every effort to provide our customers around Japan with authentic black soybean products. The Tamba-grown soybeans originate from local farms and are cultivated amongst the rich nature of Kyoto.

### Beneficial Nutrients and Antioxidants found in black soybeans!

- **Linoleic acid:** A compound that boosts metabolism and helps burn fat.
- **Lecithin:** A compound that boosts brain function, aids in memory retention and works as an anti-aging agent.
- **Saponin:** A compound that reduces the absorption of fat and decreases cholesterol levels. May play a role in the prevention of arteriosclerosis and other heart-related diseases.
- **Isoflavone:** A type of polyphenol, said to prevent osteoporosis and reduce negative symptoms of menopause. These antioxidants are believed to prevent certain types of cancer.
- **Anthocyanin:** A powerful antioxidant that suppresses heart diseases and strokes. May also inhibit the development of various cancers, and suppress signs of aging.

# Tamba's Great Treasure Black Soybean Tea

Made with Black Soybean from Sasayama, Tamba

# 黒豆茶

Tamba's Black Soybeans shine opal black.

A beautiful miracle born of the sun, the earth and water in Tamba.

## A blessing from nature for your body!

Tamba's Black Soybeans are abundant in nutrients:

- **Linoleic Acid**/Increases your metabolism and helps your body burn fat.
- **Lecithin**/Stimulates brain function, improves memory and alleviates the symptoms of dementia.
- **Saponin**/Inhibits the assimilation of fats and decreases cholesterol. It may also be effective in the prevention of arteriosclerosis.
- **Isoflavone**/A kind of polyphenol that helps prevent the onset of osteoporosis and is effective in reducing menopausal disorders.
- **Anthocyanin**/An antioxidant that helps prevent the signs of aging.
- **Cyanidin**/Cleanses and purifies the blood.

## Directions

- **Using an Electric Kettle or a Thermos.**  
Fill an electric kettle or a thermos flask with boiling water. Place one teabag per litre and allow to steep. Drink straight away hot or leave it for later.  
Flavour will continue to come out over two days.
- **Boil to Bring Out the Flavour**  
In a kettle bring 1 litre of water to the boil. Place a teabag in the kettle. Return the kettle back to the stove and gently simmer for 4 - 5 minutes to allow the flavour to come out.
- In summer, place a teabag in a jug of cold water and place it in the fridge.

## Getting Your Recommended Daily Intake Of Vegetables, Green Superfood Smoothie Made From Young, Organic Barley Leaves

We use only organically grown barley leaves from Oita Prefecture in Japan.

Forming part of the grass family, these young barley leaves are renowned for their easy to drink flavour. From their plant located deep in the heart of Kyushu island, we carefully select and use only those leaves required to maintain a delicate balance between supporting people's everyday health and upholding sustainability of the ecosystem.

Tamba black soybeans offer total body cleanse and rejuvenation.

These black soybeans contain abundant proteins and vitamins that promote good health, beauty and longevity as well as aid in the regulation of female hormones. This includes **isoflavones** and a polyphenol called **anthocyanin**, which have been shown to protect against many age-related diseases.

*Tamba black-beans and young barley leaves are combined to create a delicious super-food smoothie suitable for drinking everyday.*
